

Postgraduate Certificate in Healthcare Practice

- 60 credit modules, at Level 7
- Portfolio option; London SPIN Fellowship Programme

A limited number of places are offered on a Postgraduate Certificate in Healthcare Practice, to SPIN GP fellows and GPs in their first 5 years after CCT. The PG Cert comprises three 20 credit modules, with sessions delivered on the same day each week over 12 months during the Academic Year 2024-25. It is aimed for face-to-face teaching sessions to be delivered in London.

Overview

The course helps develop systems leadership and workforce transformation skills through delivery of academically underpinned quality improvement projects, with a 'subject specific' module based on a GP fellows' clinical area of interest with an academic assignment.

Module 1: Healthcare Practice (20 credit modules)

- Introduction/ Examine current and future healthcare challenges
- Explore the role of service –users for healthcare provision

Module 2: Leadership: (20 credit modules)

- Knowledge of leadership within and across organisations
- The concepts of leadership; individuals vs organisations
- Exploring fellows current/ developing leadership

Module 3: Negotiated learning (20 credit modules)

- Exploring/ expanding Fellows personal and professional development as negotiated, in relation to their professional setting

Funding and spaces available

- Places are funded by the programme and include a bursary of £18,964 per GP applicant, accessible via your local Training Hub. (A bursary payment contributes towards 2 clinical sessions, fellows are expected to attend all Tuesday taught sessions, masterclasses and also allot this day for study).
- 7 places are on offer within each of the five London ICB footprints.

Interested?

Contact your local ICS area SPIN Programme team in the area you're working in, who are collating Expressions of Interest for the next Academic Year 2024-25, by COP Monday 12 August.
